Mini Maroons U7 Spring 2020

Program Description:

MiniMaroons U7 soccer program continues to build from Winter MiniMaroons U7 and the successful *KinderKicker U4-U6* program. Focus continues with a fun, technical training and simplified games-based program. Emphasis is "ball dominant" to maximize touches that best build player confidence and ability. Simplified games foster technical skill development and imaginative, creative play. Aligned with *Maroons Player Development*, players develop comfort controlling & manipulating a ball.

Saturday scrimmages will use the proven small-sided format of 3 players vs. 3 players, building to 4v4. This format best allows players to develop their abilities and gain an understanding of the game. Players will learn rules of the game, and gain an understanding of attack and defense, "seeing" the field, and be introduced to a team environment. This FUN program helps increase player interest and builds a foundation for players thinking about trying out for Maroons Soccer Club.

Program Details:
