

Safety Corner

October is Walk or Bike to School Month!

We are all looking for new ways to get out and get fresh air while getting back in the swing of things, so come on out to walk or bike to school this month!

Make sure to do your best to follow social distancing guidelines, and when you can't stay 6 feet apart, wear your Travell face masks!

As always, take a moment to discuss with your kids the dangers of distracted drivers. Even if our kids make an effort to be careful, drivers nowadays have more distractions than ever.

Try to familiarize yourself with trouble areas near your home or school and come up with a plan to address them. Please reach out with any concerns!
